

MBA in Banking and Risk Management

Standard Period of Studies: 18 months

ECTS Credits: 90

This MBA programme is very unique and cannot be easily found elsewhere. Banks and other financial institutions have specifically asked to develop such Master's programme of studies, which they need for having specifically qualified staff. The EurAka University has followed this request and adopted a highly flexible structure for that financial institutions can design the course structure according to their specific needs. There is no compromise regarding the outstanding value of this degree or its academic standing. Focus and delivery are demanding and valid, in the same way and form of delivery as any other MBA programme, only such delivery has structured, but flexible interfaces.

The entire MBA in Banking & Risk Management is consequentially practice-oriented: Knowledge is delivered, which can be taken out of the classroom and find direct application in daily routine and practice of financial institutions.
